Pollux Remote Control for Microwave Sensor

Art. no: 2112-C

Pollux Remote Control for Microwave Sensor

Fjernkontroll for å endre innstillingene for Pollux sensor. Velg mellom 30s, 3min or 10min standby time. Standby brightness: av, 10%, 20% eller 30%. Hvis standby brightness er aktivert har den prioritert over dagslyssensor. Sensor detection range: 2-4m, 4-6m eller 5-9m. Dagslyssensor: Av, skumring (50-100 lux) eller natt (10-50 lux) Standard innstillingene for Pollux Sensor: Standby time 30s, standby brightness av, detection range 4-6m, dagslyssensor innstilling natt.

Kompatibel med følgende varianter:

- 2112-S-120-3
- 2114-S-120-3
- 2115-S-120-3
